## Company Overview:

**DUBISOFT** is a premier engineering software solutions provider based in the United Arab Emirates, committed to driving excellence and innovation across the region. With a strong and dedicated team of experts, we specialize in delivering world-class software solutions, customized training, and unparalleled support to clients in various sectors, including construction, engineering, and architecture.

We take pride in our client-centric approach, ensuring tailored solutions that meet the unique needs of each organization. Backed by a team of industry professionals and technical specialists, we offer a wide range of engineering and design software, along with comprehensive training and ongoing support. Our commitment to quality and innovation positions us as a trusted partner for companies looking to stay ahead in an evolving digital landscape.

### Mission Statement:

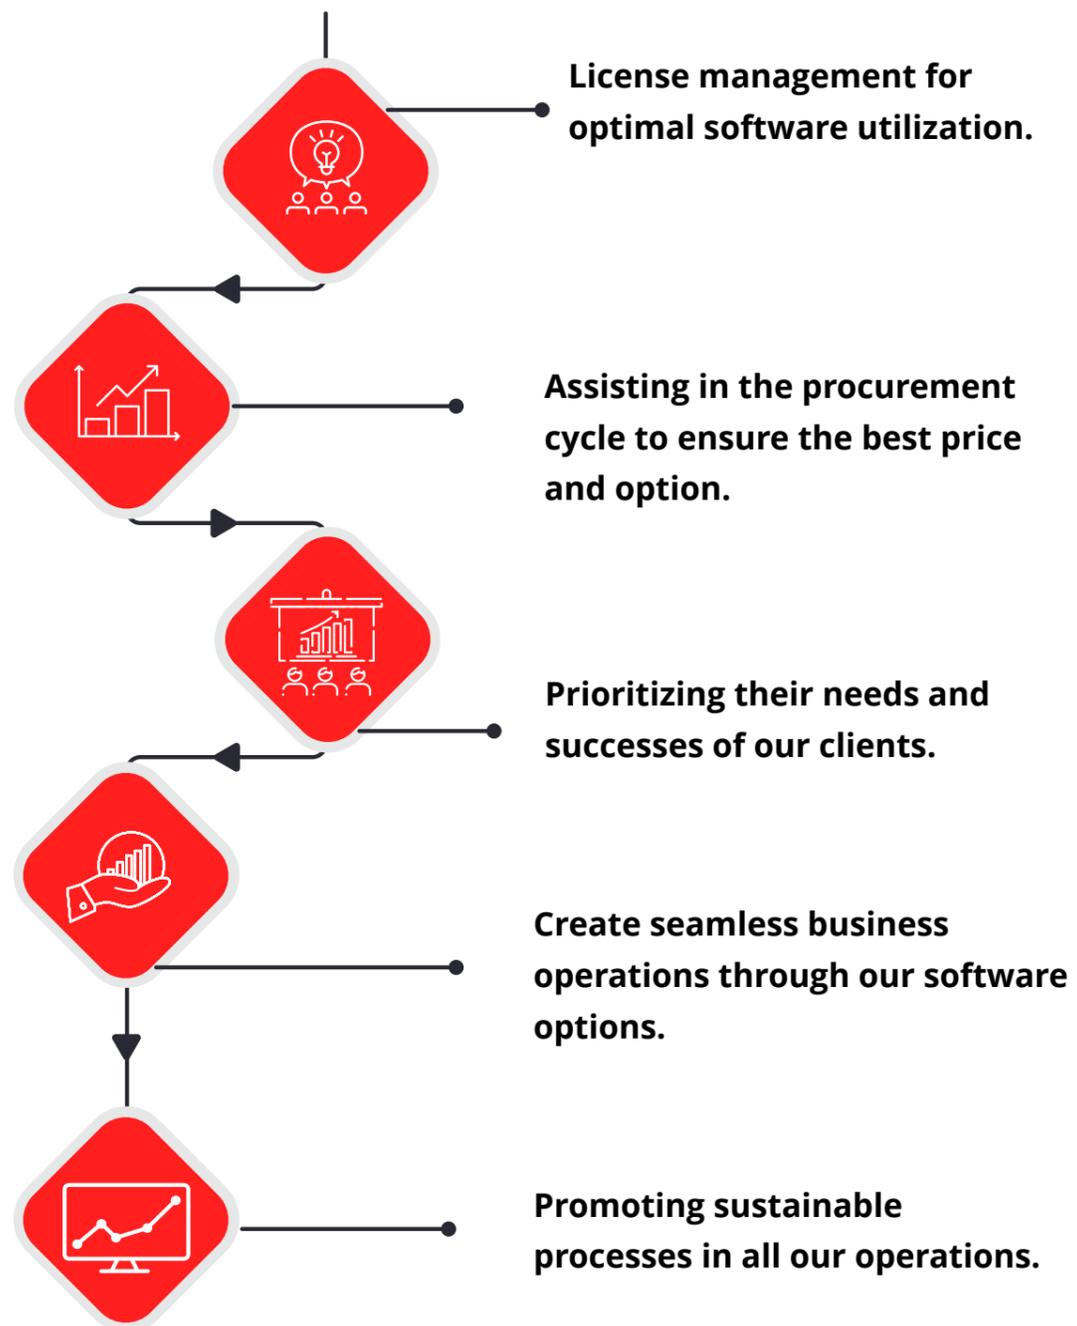

To empower businesses and professionals in the UAE with the best engineering software with expert training, consultation, and management support to achieve peak performance and sustainability in their projects.

### Vision Statement:

To be the most trusted and sought after engineering software solutions provider in the MENA region. We aim to drive digital transformation and to foster continuous improvements in the AECO industries we serve.

## Our Core Values:

## Executive Message

Serving the UAE's ever-evolving AECO landscape, DUBISOFT is your partner in innovation and excellence. DUBISOFT offers top-tier engineering solutions powered by the best software in the industry. We are committed to our mission to foster a sustainable and interconnected future.

## Featured Software

At DUBISOFT we are incredibly proud to be dealing with multinational leaders in the engineering software industry. Our advanced software technologies assist and facilitate client objectives and help them achieve their business goals efficiently.

We guarantee that with our innovative software products, we will serve every need to facilitate your business operations, whatever industry you are in.

ZWSOFT is a global software solutions provider specializing in CAD and CAx technologies that support design, engineering, and manufacturing industries. With a strong focus on performance, compatibility, and cost efficiency, ZWSOFT delivers powerful tools that enable professionals to design, collaborate, and innovate with confidence.

**Key Product Offerings:**

- ZWCAD
- ZW3D
- ZW3D Lite
- ZW3D 2X Milling
- ZW3D Mold
- ZW3D CAM
- ZWTeigha (CAD Development SDK)
- ZWSim (CAE Simulation Solutions)

A key multinational software company that are world leaders in digital media and digital solutions. Adobe provides game-changing innovations that redefine digital experiences in the way business is done. Many of their products enable the creation of stunning visuals, streamlining of workflows, and delivery of personalized customer experiences.

**Key Product Offerings:**

- Adobe Photoshop
- Adobe Illustrator
- Adobe InDesign
- Adobe Premier Pro
- Adobe AE
- Adobe Creative Cloud
- Adobe Experience Cloud

A detailed project portfolio management software solution designed to help Organizations plan , manage, and control detailed and complex projects. Oracle Primavera provides for project scheduling, risk analysis, performance tracking and resource management. It enables teams to optimize resources to ensure project alignment to improve decision-making within the AEC industry to help companies deliver projects on time within budget.

**Product Offering:**

- Primavera P6 Enterprise Project Portfolio Management (EPPM)
- Primavera Unifier
- Primavera Cloud
- Primavera Contractor
- Primavera Portfolio Management

A versatile 3D modeling software widely used for architectural, interior design, and engineering projects, and construction projects. Also known for its user-friendly interface and tools, SketchUp its users to develop 3D models seamlessly. It is an extensive library of plugins and tools for professionals to create and visualize design ideas effectively.

- SketchUp Pro
- SketchUp Studio
- SketchUp Shop
- 3D Warehouse
- Style Builder
- LayOut

Computer and Structures, Inc. (CSI) is the leading provider of structural engineering software. Their specialization in developing innovative, user-friendly tools for structural analysis and design, serving all engineers, architects, and construction experts.

**Product Offering:**

- SAP2000
- ETABS
- SAFE
- CSI Bridge
- PERFORM3-D

Chaos is a leading provider and simulation software solutions, which caters to professionals in the AECO and visual effects industries. They are well-known for their flagship product, V-Ray. They deliver high-quality, realistic rendering capabilities that help users create incredible visuals and animations.

**Product Offering:**

- V-Ray
- Phoenix FD
- Chaos Vantage
- Chaos Cloud
- V-Ray Collection
- VRscans

Bentley Systems is a global leader in providing comprehensive software solutions for the infrastructure industry. Their innovative applications support the design, construction, and operation of roads, bridges, buildings, industrial plants, and utilities. Bentley's software empowers engineers and architects to deliver sustainable and efficient projects with enhanced collaboration and precision.

#### Key Product Offerings:

- MicroStation
- OpenRoads Designer
- OpenBuildings Designer
- ProjectWise
- STAAD.Pro
- ContextCapture
- SYNCHRO 4D

Microsoft is a world-renowned technology company known for its versatile software solutions that drive productivity, collaboration, and digital transformation across industries. From project management to cloud computing and business intelligence, Microsoft provides robust tools that enable businesses to innovate and scale efficiently.

#### Key Product Offerings:

- Microsoft 365 (Word, Excel, PowerPoint, Outlook, Teams)
- Microsoft Project
- Microsoft Azure
- Power BI
- Dynamics 365
- SharePoint
- Visual Studio

An industry-leading GIS technology provider, ESRI empowers organizations worldwide to visualize, analyze, and interpret spatial data at unprecedented scale. ESRI's ArcGIS ecosystem enables businesses, governments, and engineering teams to make smarter decisions through real-time mapping, geospatial analytics, digital twins, and location-based insights.

#### Key Product Offerings:

- ArcGIS Pro
- ArcGIS Online
- ArcGIS Enterprise
- ArcGIS CityEngine
- ArcGIS Field Maps
- ArcGIS Survey123
- ArcGIS Insights
- ArcGIS GeoBIM
- ArcGIS Urban

Foxit is a global leader in fast, secure, and affordable PDF solutions designed to boost productivity and collaboration. Trusted by enterprises worldwide, Foxit offers powerful tools for creating, editing, managing, and securing PDF documents. With seamless integrations and lightweight performance, Foxit enables organizations to improve digital workflows, enhance document control, and reduce operational costs.

#### Key Product Offerings:

- Foxit PDF Editor
- Foxit PDF Reader
- Foxit PDF Editor Pro
- Foxit eSign
- Foxit PDF Compressor
- Foxit PDF SDK (Developer Tools)
- Foxit RMS (Rights Management Service)

## CorelDRAW

CorelDRAW is a powerful graphic design suite widely used across creative industries for vector illustration, layout, branding, and digital content creation. Offering an intuitive interface and professional-grade features, CorelDRAW supports designers in producing stunning visuals with speed and accuracy. It is a popular choice for marketing teams, print houses, and businesses seeking versatile and cost-effective creative tools.

#### Key Product Offerings:

- CorelDRAW Graphics Suite
- Corel PHOTO-PAINT
- CorelDRAW Technical Suite
- CorelDRAW Essentials
- CorelDRAW Standard
- Corel Vector (Web-based design tool)

Ensoft is a trusted provider of advanced geotechnical engineering software used by civil, structural, and foundation engineers worldwide. Their solutions offer precise analysis and modeling capabilities for deep foundations, soil-structure interaction, piles, retaining systems, and more.

#### Key Product Offerings:

- LPILE (Nonlinear Analysis of Piles)
- GROUP (Pile Group Analysis)
- SHAFT (Drilled Shaft Analysis)
- APILE (Axial Load Analysis of Driven Piles)
- PYGMY (Pile Dynamics)
- DynaN
- TZPILE
- UFLEX / FB-MultiPier Integration

## AutoRebar

AutoRebar is an AutoCAD plug-in designed to automate the creation of reinforcement detailing in structural drawings. It provides smart rebar objects, automatic schedules, and precise quantity takeoffs that significantly reduce manual drafting time. AutoRebar enables engineers and detailers to deliver consistent, accurate, and fully coordinated reinforcement plans with improved efficiency and fewer errors.

#### Key Features:

- Rebar Shape Tools
- Automatic Bar Bending Schedules
- Rebar Callouts & Annotations
- Reinforcement Quantity Takeoff
- Customizable Rebar Libraries
- 2D Reinforcement Drafting Tools

DiRoots is a specialized software development company delivering innovative plugins for Autodesk Revit and BIM workflows. Their tools are engineered to automate repetitive tasks, enhance modeling accuracy, accelerate documentation, and enable seamless project coordination. DiRoots solutions empower architects, engineers, and BIM specialists to achieve higher efficiency with minimal effort.

#### Key Product Offerings:

- SheetLink
- TableGen
- FamilyReviser
- ReOrdering
- OneFilter
- ParaManager
- Exporter
- ProSheets

## Implementation and Training Services

We are committed to empowering firms in the AECO industry through comprehensive implementation and training services. Our offerings here at DUBISOFT are designed to help companies seamlessly adopt new technologies and optimize their workflows to achieve their business goals.

### Software Training

We provide tailored training programs on Autodesk and various engineering software, ensuring that your team is proficient in the latest technologies and tools necessary for an efficient program in your projects.

## BIM Services

### BIM Training:

Our specialized training in Building Information Modeling (BIM) helps firms implement BIM uses and optimize their workflow. Our training covers the application of knowledge, tools, technologies, and other functions to enhance their project outcomes.

### BIM Coordination:

Here we focus on preventing and resolving clashes and conflicts within your projects. We equip your team with the skills to effectively manage BIM documentation.

### BIM Management

We offer in-depth training on managing BIM projects, including creating and handling documents. Our programs teach you how to implement workflows, technologies, and tools to achieve BIM goals.

## Featured Clients

At DUBISOFT we are incredibly proud to serve a diverse and distinguished clientele across the Middle East, including prominent international firms in the UAE, Saudi Arabia, and Egypt.

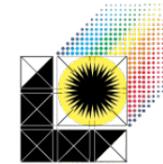

Our commitment to delivering exceptional digital transformation has earned us the trust and loyalty of leading companies in the Architecture, Engineering, and Construction industries.

We take full pride in our ability to tailor our services to meet the unique needs of each client, to ensure a successful collaboration and long-term partnership.

## Why Choose DUBISOFT?

**At DUBISOFT** we are committed to empowering your business with the best software solutions and unparalleled training services. Our experts in the AEC industry ensures that you receive your tailored support to meet your unique project needs and achieve your business goals. **Here is why DUBISOFT is the right partner for you:**

### **Best Software in the Industry**

Provide access to the best software solutions in the industry to ensure your company benefits from the most advanced tools.

### **Customized Training**

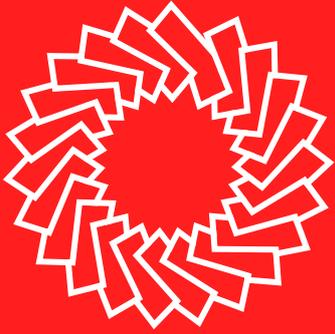

Our tailored training and BIM services are designed to help you meet your specific needs, to ensure your team gains the skills and confidence to excel.

- Team of Technical Experts
- Backed-up by Market Leaders

### **Client-Centric Approach**

We are committed to understanding your business goals and providing solutions that drive success, to foster a long-term relationship based on trust and excellence.

where we have a proven track record of delivering exceptional results.
